A close-up photograph of a muddy, rutted path. On the left, a black boot tread is visible, partially obscured by a blurred orange object. On the right, a person's leg in a blue jacket is visible. The path is muddy and rutted, with some dry grass and leaves scattered around. The word "INTH" is overlaid in large white letters across the top right portion of the image.

BETTER GRIP

Motocross is loud and aggressive by nature. You must be a little brash in your approach if you want to make a serious statement. The **POUNCE COLLECTION** shouts these intentions with big, bold prints. Available in orange, black, or gray, the finely ventilated shirt options will ensure you stand out from the pack. On the pants, the heatproof, abrasion-resistant knee reinforcements allow you to grip the bike tightly as you rip past the competition.

REINFORCED MATERIAL

PREMIUM MATERIAL

Toughness and versatility are necessary attributes when it comes to Enduro riding. Features that are literally etched into the essence of the **RACETECH** Jacket and Pants. **KTM** recognizes the diverse challenges that mother nature confronts riders with out on the trail. This understanding, together with their experiences in the toughest races in the world, have enabled the brand to provide functional solutions without compromise on the type of performance expected by the world's best riders.

The **RACETECH GEAR** shows its versatility by doing more than just protecting the rider. It provides warmth for those early morning starts and also has multiple options for cooling when the ride heats up. Its rugged exterior is pieced together using reinforced seams, making it extremely durable. Adding to its impressive mix is practicality are several internal and external storage options, including a large cargo pocket on the rear, and a hose routing for drinks systems.

RACETECH JACKET

The **RACETECH JACKET** is the epitome of versatility. It really comes into its own as the ride progresses though. Several perforated ventilation zones, together with front and rear air inlets, give the rider the option to cool things down steadily. The jacket saves its best trick for when the rider needs it most. It has a removable top layer that leaves the rider with a highly vented, sleeveless vest, allowing direct airflow onto those hardworking forearms.

RACETECH PANTS

The **RACETECH PANTS** also define their strengths as lightweight and very tough. It complements the jacket's impressive functionality with several notable features of its own. The knee area is pre-formed in position and has heatproof and abrasion-resistant leather reinforcements for protection. Elasticized panels add to comfort and freedom of movement, while zipped and perforated ventilation zones offer options for cooling when on the move.

RACETECH COLLECTION RESILIENT

The **RACETECH COLLECTION** features all the innovative, race-derived technology you need when faced with the extremes of Enduro. It manages to combine the optimal pairing of exterior toughness with inner comfort. Together with its adaptable jacket, this highly versatile set has the ability to not only protect, but keep you warm on those early morning starts, or cool down with easy top part removal.

VAST GORE-TEX® GEAR

JACKET & PANTS

MAGNETIC ZIPPER

Whether you're exploring the outskirts of the city or across the continent, this touring set is one of the firm favorites amongst experienced travelers. It utilizes a **GORE-TEX®** laminated membrane shell that offers guaranteed levels of waterproofing and breathability, without adding material bulk. That means it is able to deliver optimum wet weather protection while remaining light and easy to maneuver in. This is a key feature for riders who spend hours in the saddle traversing through varying terrain and conditions.

WATERPROOF

Although the key feature of this set is its lightweight feel, this is achieved without compromising on protection. Besides being Tech-Air® ready, the set is fully CE-certified with an AA class rating. Together with its abrasion and tear-resistant fabric this set offers riders the peace of mind they need to focus on the journey, no matter what it has in store for them.

VAST GORE-TEX® JACKET

Every detail of the jacket is designed for enhanced comfort and practicality, such as the magnetic main zip, the chest glove pocket, and the elasticated waist. It features internal Nucleon Flex Pro elbow and shoulder armor for extra impact protection. Optional chest and back compartments accommodate Nucleon chest and back protector inserts, and together with its Tech-Air® 5 Airbag compatibility, complete upper body protection is possible. The rear of the jacket is elongated for greater coverage in the riding position, and also features waist adjusters with an innovative welded construction for a great riding fit. And for those colder days, there is a removable thermal liner.

VAST GORE-TEX® PANTS

The waterproof laminated **GORE-TEX®** pants are great in all weather conditions. They have large ventilation zones on the thighs for optimal airflow and breathability. The innovative fabric technology ensures the pants feel light and together with stretch inserts on the preformed knees, offer optimal freedom of movement for the rider. Like the jacket, they also come with a removable thermal liner for colder days, and bright orange panels that ensure some extra visibility out on the road.

RADIUS 2-PCS SUIT COLLECTION EMPOWERED

With a snug race fit, aerodynamic hump, and DFS shoulder, elbow, and knee armor, the **RADIUS 2-PCS** cowhide leather suit is clearly all about performance. But convenience, comfort, and protection definitely play a role in this set too. Convenience comes in the easy removal of the jacket for those mid-ride pit stops. Comfort comes from the HRSF (Highly Resistant Stretch Fabric) polyamide stretch inserts. And heightened protection comes thanks to its compatibility with the Tech-Air® 5 Airbag.

TECH-AIR® 5 AIRBAG VEST

PROTECTION

INTEGRATED SENSORS

Whether you're slashing through twisty alpine roads, chasing the clock on an urban commute, or trying to beat the sunset on a high-speed tour, the **TECH-AIR® 5 AIRBAG VEST** is the ultimate under jacket protection garment to have. Its active electronic system features six integrated sensors and a crash algorithm that uses AI technology to accurately monitor airbag deployment in the event of a crash. The airbag decreases impact force by up to 93% compared to other CE-certified passive protectors, offering unrivalled upper body protection around the shoulders, chest, ribs, and back.

FULL AIRBAG INFLATION

The vest is tethered to your phone via Bluetooth so you can monitor the system's operational and battery status, as well as to analyze your ride by plotting a route map. It has sensitivity selection options so you can choose between street and race mode. Beyond its obvious protection advantages and innovative connectivity features, the lightweight vest also features an integrated back protector and vents that promote positive airflow.

TECH-AIR® 5 AIRBAG VEST

This slim, self-contained wearable airbag vest fits under any proper fitting textile jacket, or leather jacket that has at least 4 cm of space around the rider's chest. It offers unrivaled protection around the rider's shoulders, chest, ribs, and full back. With a deployment time of between 20 and 40 ms, the fast-acting air protection layer helps to minimize the forces at impact. The air pockets around the shoulder area on this latest edition really help to reduce shoulder and collarbone injuries.

UNDERWEAR COLLECTION ESSENTIAL

The evolution of innovative undergarment wear has elevated the riding experience to new levels. Using fabric technology that promotes optimal circulation and the efficient wicking of moisture, these fast-drying undergarments achieve so much more than simply preventing you from sticking to your outer layers. They have become essential to the ride.
